5.57 m

Technical information

Safety area width	9.98 m
Safety area length	18.57 m
Width of structure	6.64 m
Length of structure	15.96 m
Height of structure	5.57 m
Max. fall height	1.55 m
Recommended age of children	1+
For simultaneous use by several children	20-30

Product consists of

Platforms	1 pcs with a height 2.85 m Laminated wood
Platforms	4 pcs with a height 2.1 m Laminated wood
Platforms	1 pcs with a height 1.55 m Laminated wood
Roofs	1 pcs HDPE plastic
Slides	1 pcs with a height 0.95 m Stainless-steel, HDPE plastic sides
Tunnel slides	1 pcs with a height 2.85 m Plastic
Climbing walls	4 pcs HDPE plastic
Climbing nets	1 pcs 16 mm six-strand PES cover braided steel ropes
Bridges	3 pcs
Tunnels	3 pcs Plastic
Stairs with handrails	1 pcs Laminated wood
Fireman poles	1 pcs Galvanized and powder-coated steel
Activity panels	19 pcs HDPE plastic
Posts	28 pcs Laminated wood
Panels/Plates	10 pcs HDPE plastic
Tubes	9 pcs Galvanized and powder coated steel

Installation info

Installers	2
Installation time	54 h
Volume of concrete	58 bags (25kg)

Two-tiered play centre with five platforms and a large castle tower is fully suited for developmental play and offers activities for children of various age groups. The lower tier is created for toddlers and contains many elements that help develop their physical and motor skills. Stairs with handrails lead to the lower platform. To move on a balance bridge with moving steps, a net bridge, a sloping bridge or a rock climbing wall have to be crossed. The path is lined with moving and rotating activity walls, a clock, binoculars and several fine motor skills panels. A small and sturdy slide offers a way down. The platforms, tunnels and portholes for older children are housed on the higher tier and can be accessed via a ladder or a climbing wall with holes. The big, roofed platform offers two ways for sliding down: a tunnel slide or a fireman's pole. Activity walls offer an abundance of fun activities and an extra level of joy. The two floors of the castle tower are connected by a rope climbing element, which provides a challenging climb between the two levels.
