Activity panels	2 pcs HDPE plastic
Posts	8 pcs Laminated wood
Panels/Plates	4 pcs HDPE plastic
Tubes	4 pcs Galvanized and powder coated steel

Installation info

Installers	2
Installation time	8 h
Volume of concrete	18 bags (25kg)
Package dimensions	3,1x1,0x2,2m

A toddler play centre. The platforms are connected by a long crawl tunnel. The platforms can be accessed via either stairs with handrails or a small ladder, and a slide and a fireman's pole offer a way down again. Two activity walls add an extra layer of joy. The side panels of the play centre can be switched for various activity walls or thematic printed panels (animals, birds, fish, trees, berries, etc.). The design of the panels will be finalised with the client during ordering.
