The product needs a safety surface

A combined play centre with swings, a slide and a ramp with rungs. Hidden beneath the platform is a fun play corner with a bench, which can be fitted with either kitchen or car dashboard elements. A strong metal beam is attached to the play centre, which holds an aluminium reinforced rubber swing seat (swing set KRK2 is included in the price of this product). The side panels of the play centre can be switched for various activity walls or thematic printed panels (animals, birds, fish, trees, berries, etc.). The design of the panels will be finalised with the client during ordering.
