3.48 m

1.9 m

## Technical information

Safety area width	6.45 m
Safety area length	6.48 m
Width of structure	2.95 m
Length of structure	3.48 m
Height of structure	1.9 m
Max. fall height	0.95 m
Recommended age of children	1+
For simultaneous use by several children	3-6
Wheelchair Accessible	Yes

## Product consists of

Platforms	1 pcs with a height 0.95 m Laminated wood
Slides	1 pcs with a height 0.95 m Stainless-steel, HDPE plastic sides
Stairs with handrails	1 pcs Laminated wood
Activity panels	4 pcs HDPE plastic
Posts	4 pcs Laminated wood
Tubes	1 pcs Galvanized and powder coated steel

## Installation info

Installers	2
Installation time	5 h
Volume of concrete	10 bags (25kg)
Package dimensions	2,6x1,1x0,9m

An inclusive play centre suitable for children with special needs. The play centre can be accessed via extra wide stairs, which let the user move around with a caregiver. The steps are wider, so they can be stood on with both feet. The handrails are taller to offer extra support. The slide itself is wider, so kids and caregivers can slide down it together. To create a visual contrast to help the visually impaired, the vertical surfaces of the stairs, the first step and one platform board have been dyed darker. The play centre is equipped with many activity panels, that help develop fine motor skills – moving a ring from one end of the panel to the other, turning the captain's helm, viewing the surroundings from the binoculars.
